FAQs for prospective students

Questions about study orientation and study opportunities at THWS

Show all | Hide all

What are the characteristics of studying at a university of applied sciences (or technical university)?

- Strong practical relevance through practical semesters and project work during your studies
- Dual study opportunities
- High proportion of laboratory and seminar exercises
- Theses that deal with concrete questions from professional practice
- Sound professional experience of the professors
- Lecturers from practice
- Teaching content is usually taught in seminars

What is the difference between studying at university and at the University of Applied Sciences?

- **University**: Application-oriented studies
  University: Science-oriented studies
- **University**: Cooperative doctorate or doctorate at the Doctoral Centre
  University: Doctorate possible
- **University**: Smaller study groups
  University: Theory and science in the foreground
- **University**: Intensive support for students
  University: Imparting extensive basic knowledge
- **University**: Practical semester during studies
  University: Broader range of subjects
- **University**: Well-founded professional experience of the professors

What is meant by tiered degree programmes?

The first professional qualification after a standard period of study of seven semesters in Bavaria is the Bachelor's degree. The Master's degree – as a postgraduate course of study – requires a first academic degree.

What qualifications can I obtain at THWS?

Both Bachelor's and Master's degrees can be obtained at THWS. Here you can find an overview of all degree programmes (/studium-an-der-thws/studieren/studiengaenge/) at THWS. We also offer further information and numerous videos on the page Program Information for Prospective Students.

What entitlements are associated with the Master's degree?

Master's degrees obtained at universities and equivalent institutions of higher education or at universities of applied sciences generally entitle the holder to a doctorate. Master's degrees open up access to the higher civil service.

How many semesters does the degree programme at THWS include?

The standard period of study is seven semesters, including one practical semester. Exceptions are the Bachelor's degree in Architecture with eight semesters and the Bachelor's degree in Specialist Translation with six semesters.

Which STEM Bachelor's degree programmes does THWS currently offer?

Here you can find an overview of the STEM Bachelor's degree programmes at THWS

What artistic bachelor's degree programmes does THWS currently offer?

Here you can find an overview of the artistic bachelor's degree programmes at THWS

What bachelor's degree programmes in economics does THWS currently offer?

Here you can find an overview of the Bachelor's degree programmes in Business and Economics at THWS

In which Bachelor's degree programmes can I study in the social sector at THWS?

Here you can find an overview of the social Bachelor's degree programmes at THWS

Which degree programmes can I study in German and English?

The English-language Bachelor's degree programmes at THWS are designed as TWIN degree programmes (/studium-an-der-thws/studieren/studiengaenge/#c24659) ("twin programmes") to existing German-language Bachelor's degree programmes. These courses of study make it possible to complete the course in both German and English. The courses are accompanied by cultural and language training.

I would like to study dual studies. What opportunities are there at THWS?

The Würzburg-Schweinfurt University of Applied Sciences offers dual courses of study (https://www.thws.de/studium-an-der-thws/studieren/duales-studium/) in the variants of combined studies or studies with in-depth practice.

Are preparatory courses offered to prepare for studying at THWS?

The Continuing Education Campus (https://www.thws.de/weiterbildung/weiterbildungen/vorbereitungskurse/) offers preparatory courses for studying at the THWS.

Is the typical Master's/Bachelor's thesis at THWS practice-oriented?

The typical Master's/Bachelor's thesis at the THWS solves a problem from practice. THWS students can thus prove their problem-solving skills in the company or other institutions and thus have advantages in the application process.

Can I write my Master's thesis at one of the THWS research institutes?

The Master's thesis can also be written as part of research projects at a THWS research institute.

Can I do my doctorate at THWS?

Graduates of the Master's degree programmes can write their doctoral thesis as part of the cooperative doctorate or at the Doctoral Centre.

What requirements do qualified professionals have to meet in order to gain subject-specific university admission?

Professionally qualified persons (/beratung-und-service/bewerbung-immatrikulation-pruefungen-praktikum/bewerbung/hochschulzugang-fuer-beruflich-qualifzierte/) must prove their suitability for study at the Würzburg-Schweinfurt University of Applied Sciences by means of a two-semester trial course of study before final enrolment in the degree programme applied for.
Please also note point 2.3.4 in the information sheet on the allocation procedure in the admission-restricted Bachelor's degree programmes (/fileadmin/redaktion/dokumente/HSST/Infobl%C3%A4tter/240319-Infoblatt_NC.pdf) and the

information sheet for those with vocational qualifications (/fileadmin/redaktion/dokumente/HSST/Infobl%C3%A4tter/230309_Infoblatt_Qualifizierte_01.pdf). If you have any questions, please make an appointment with the General Student Advisory Service (/beratung-und-service/studienberatung/).

What is meant by mandatory counselling for applicants without an Abitur?

General and subject-specific access to higher education requires that a counselling interview has been completed at the university at which the course is to be commenced; the university shall issue a certificate to this effect. If you have any questions, please make an appointment with the General Student Advisory Service (/beratung-und-service/studienberatung/).

Does Campus Continuing Education offer preparatory courses for applicants without a high school diploma?

The Campus Continuing Education (https://www.thws.de/weiterbildung/weiterbildungen/vorbereitungskurse/) offers part-time preparatory courses and crash courses in mathematics, physics and techniques of the scientific profession. work. The content is taught in small groups with a maximum of 20 participants by experienced lecturers who take into account the different levels of knowledge of the individual participants.

I have already studied at another university, can I have individual exams credited?

If you have switched to study at our university or have changed your degree programme within the university, you may be able to have credits from your previous studies credited. Please contact the Student Services (/beratung-und-service/bewerbung-immatrikulation-pruefungen-praktikum/) Office first. You will receive a form in which the respective module coordinators must confirm the credit. Please also refer to the pages for applying for a higher semester (/beratung-und-service/bewerbung-immatrikulation-pruefungen-praktikum/bewerbung/bewerbung-in-ein-hoeheres-semester/).

I would like to change my degree programme. Can I apply for a higher semester?

Please refer to the pages on how to apply for a higher semester (/beratung-und-service/bewerbung-immatrikulation-pruefungen-praktikum/bewerbung/bewerbung-in-ein-hoeheres-semester/).

Do I have to exmatriculate from my previous university in order to be able to apply to THWS?

You can remain enrolled at your previous university during the application process at THWS. Exmatriculation from the previous university must only take place immediately before enrolment at THWS.

Are second-degree applicants to restricted-admission Bachelor's degree programmes admitted according to special admission criteria?

Applicants who have already completed a degree at a German university at the time of application will be admitted within the framework of a special quota.
The decisive factor for admission is the amount of the measurement number, which is formed from the result of the final examination of the first degree and the degree of importance of the reason for

the second degree. Further information can be found in the information sheet on the allocation procedure for the admission-restricted Bachelor's degree programmes (/fileadmin/redaktion/dokumente/HSST/Infobl%C3%A4tter/240319-Infoblatt_NC.pdf). (under "D")

Is health insurance compulsory for students?

Health insurance is compulsory for all students. Further information, in particular about health insurance contributions and insurance exemptions, can be obtained from the General Local Health Insurance Funds (AOK) and all other statutory health insurance funds. Further information can be found in the information sheet on the allocation procedure for the admission-restricted Bachelor's degree programmes (/fileadmin/redaktion/dokumente/HSST/Infobl%C3%A4tter/240319-Infoblatt_NC.pdf). (page 13)

Which offices can I contact at THWS if I have a disability or chronic illness?

Here you will find the contact persons for disability or chronic illnesses (/beratung-und-service/studium-mit-behinderung-oder-chronischer-erkrankung/).

Your question was not answered here?

The Student Services also offers FAQs with further questions about application and enrolment: FAQ of the Student (/beratung-und-service/bewerbung-immatrikulation-pruefungen-praktikum/faqs/)

Services Office Foreign applicants can find answers to their questions here:
FAQ from THWS International (https://international.thws.de/en/faqs/)

The THWS Student Advisory Service (/beratung-und-service/studienberatung/) is also available for advice if you have any questions.
