Other housing options outside the student union

Private room placement service of the student union

The Würzburg Student Union supports students at the university locations of Aschaffenburg, Bamberg, Schweinfurt, and Würzburg in their search for rooms and apartments with the website " Search for private rooms ," which publishes available listings for each city and its surrounding area. The listings are generally updated daily from Monday to Friday.

Danger!

The student services organization merely passes on the information it receives from landlords and assumes no liability for the accuracy of this information, nor can it provide any further information or make any promises. The student services organization cannot verify whether

the price and quality of the offered rooms and apartments are in reasonable proportion.

Due to the current increase in fraudulent schemes, please check the offers carefully and do not transfer any money before you are sure of their authenticity.

Further information can be found at the following links:

- Beware of scams when looking for an apartment

Looking for a private room

Offer private rooms

Private landlords can post listings for free on the " Offer private rooms " page. New listings usually appear with the next update.

Please inform the student services organization as soon as you have rented out your listed accommodation so that they can delete it and keep their listings up to date. This will also save you and potential tenants time and unnecessary calls. Otherwise, all listings will be deleted by the student services organization after three months.
