CAIRO.thws

the Center for Artificial Intelligence at THWS

where research meets innovation

Curiosity. Research. Real impact.

about CAAIRO.thws

Founded in 2021, CAIRO.thws is THWS's response to the growing curiosity — from both industry and society — about what AI can really do. We focus on research that matters: exploring how data-driven AI can solve real problems, responsibly and creatively .

research for practical impact

Our goal is to develop research that's both highly scientific and practical. Our team of researchers, THWS professors, and collaborators works across a wide range of AI fields, including:

- **Computer Vision:** teaching machines to see and understand the world
- **Dynamic Neural Architectures:** designing adaptable AI systems
- **Law and AI:** exploring the legal and ethical dimensions of intelligent technologies
- **Representation and Learning in AI:** developing smarter ways for machines to understand and reason
- **Robotics and AI:** bringing intelligence into physical systems
- **Natural Language Processing:** enabling AI to read, write, and understand human languages
- **Statistical Sensor Data Fusion:** combining data from multiple sources for better insights

Together, we tackle these challenges with cutting edge research and innovative, thoughtful solutions that bridge theory and practical applications.

sharing knowledge

Research doesn't stop at the lab. Our professors bring AI into the classroom through our Master's program in Artificial Intelligence (MAI (https://mai.thws.de/en/)) and in other programs of THWS Faculty of Computer Science and Business Information Systems (FIW (https://fiw.thws.de/en/)) and work closely with companies and community partners to turn new methods and tools into real-world benefits.

a hub in the Bavarian AI network

Together with the Center for Artificial Intelligence and Data Science (CAIDAS (https://www.uni-wuerzburg.de/caidas/)) at Julius-Maximilians-Universität Würzburg, we form the Data-Science Hub of the Bavarian AI Network (https://baiosphere.org/en/data-science-ai-in-all-walks-of-life/) , supported by the High-Tech Agenda Bavaria (HTA (https://www.hightechagenda.de/en/)).

At CAIRO.thws we foster collaboration within THWS and across the AI research community, connecting ideas and expertise. We also work closely with the Center for Robotics (CERI (https://www.thws.de/forschung/institute/idee/center/ceri/)) at THWS, exploring how AI and robotics can come together in exciting ways.

We're growing, evolving, and excited about what's ahead.

CAF. We connect. Science and knowledge transfer.

Institutes and centers

Research institutes:

Center for Artificial Intelligence (CAIRO) (https://www.thws.de/?id=5903)

Center for Robotics (CERI) (https://robotik.thws.de/)

Institute for Applied Logistics (IAL) (https://business.thws.de/ial/)

Institute for Applied Social Sciences (IFAS) (https://ifas.thws.de/)

Institute for Digital Engineering (IDEE) (https://www.thws.de/?id=5880)

Institute for Design and Information Systems (IDIS) (https://www.thws.de/?id=4987)

Institute for Energy and High Voltage Technology (IEHT) (https://www.thws.de/?id=6602)

Institute for Medical Technology (IMES) (https://www.thws.de/?id=4795)

Institute for Rescue Services, Emergency and Disaster Management (IREM) (https://business.thws.de/irem/)

Institute for Sustainable Energy Systems (INSYS) (/en/research/institutes/insys/)

Competence Center Mainfranken (http://caf.thws.de)

Technology transfer centers:

TTZ Ochsenfurt, District of Würzburg (TTZ-WUE Cyber Security) (https://ttz-wue.thws.de/)

TTZ Electromobility (TTZ-EMO) (https://ttz-emo.thws.de/)

TTZ Haßfurt (TTZ-HAS) (https://ttz-has.thws.de/)

TTZ Marktheidenfeld, Main-Spessart district (TTZ-MSP) (https://ttz-m.thws.de/)

TTZ Bad Kissingen (TTZ-KG) (https://ttz-kg.thws.de/)

TTZ Kitzingen (TTZ-KT) (https://ttz-kt.thws.de/)

Graduate Centre:

Promotion Center for Sustainable and Intelligent Systems (NISys) (https://www.thws.de/?id=8324)
