Private health insurance from Germany or abroad

The exemption from public insurance is final and <u>irrevocable</u>

This means…

Private health insurance

- Fill out an application form at the statutory health insurance company for release.
- This release applies to the entire study period and all following degree programs, such as master's degree or PhD.
- For the enrolment Submit the confirmation paper of the release to the Student Affairs Office.
- **But** you will pay low premiums only for 4-5 years.
- Premiums increase with time.
- After 5 years, you will pay higher premium than for public insurance.
- Your insurance must be valid for your entire time of study and of your stay.

Private health insurance

- You receive bill form the doctor that you have to forward to the insurance company.
- The insurance covers only medically necessary treatment, no precaution.
- The insurance covers only some part of the treatment, you have to pay the other part.
- Letter correspondence is often in German.
- Once you have been released, you can no longer obtain free family insurance through a public health insurance company.
- You can take out a statutory health insurance only after finishing your whole study.

!

Email example from **Sunday**, 6. March 2022, 11:13

“I was experiencing ringing in my ears (tinnitus) and decided to see a doctor who performed a test and determined that I had hearing loss due to the tinnitus, and he prescribed a hearing aid.

I contacted my insurance company (Mawista) about the hearing aid and they told me that they will not pay for it because they did not cover it.

I have tried to switch to public insurance so I can pay for it, but AOK told me **I can't switch**.

This is really a difficult situation for me because the cost of the hearing aid is so high (more than 2000 euros) that I have to pay it myself as a student, while I decide to write to you and ask for your help.”

Health insurance

- In case of non-payment of the monthly premium
  - ⇒ Letter from the health insurance company will be sent to FHWS.
  - ⇒ Student will be expelled from THWS!!

!

Non-German health insurance or private insurance for students

- If you use a **non-German health insurance or a private German insurance**, contact first a German statutory health insurance provider for confirmation of validity and exemption.
- **Contacts of German statutory health insurance providers on our web page, „Before arrival“, step 5:**

https://international.thws.de/en/thws-international/ways-to-thws/applicants-and-student-support/before-your-arrival-at-thws/

Doctors and hospitals

- Find a general practitioner (“**Hausarzt**”) after arriving to Germany who can treat you for general illnesses and refer you to a specialist when is needed.

- Google search for specialist: e.g. “Augenarzt Schweinfurt” or “Würzburg”

Personal Liability Insurance („Haftpflichtversicherung“)

Personal liability insurance covers the typical risks of everyday life

- Bodily injury (hurting another person)
- Damage of other people’s property
- It is not compulsory but highly recommendable, ca. 40 Euro per year

- https://www.bavariadirekt.de/versicherungen/haftpflicht-versicherung/privat-haftpflicht-versicherung/komfort-m/

Example: Running into a car with a bicycle could cost min. 1500-2000 Euro.
